pfösl's water

Project aquaenatura ...

Our water is filtered, biologically cleaned and freed from all dry residues.

Through this procedure we avoid long transport routes and unnecessary waste.

We invest a share of every water bottle sold at Pfösl in a myclimate carbon offset project in Uganda, for clean drinking water through UV radiation.

beers

south tyrol

nopp bräu

"From the sowing of barley to the finished beer, everything is done by hand".

On the Nopp farm, agricultural beer is brewed, mainly with raw materials from their own cultivation. Traditional beer styles, hand-brewed according to the German Purity Order, which means: water, yeast, malt and hops. The beer is natural, not filtered and pasteurized.
